### 1.3 The Strategic Context of the SDBIP

Section 53 of the Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA) requires of municipalities to compile a Service Delivery and Budget Implementation Plan (SDBIP). The aim with this Plan is to serve as a management, implementation and monitoring tool that align the IDP, the budget and the service delivery targets of the municipality. In this context, section 53 (1)(c)(iii)(bb) of the MFMA requires of the Mayor to ensure that the measurable performance objectives approved with the budget are aligned with the SDBIP. These targets then provide the bases for the compilation of the Performance Agreements of the Municipal Manager and other section 57 managers.

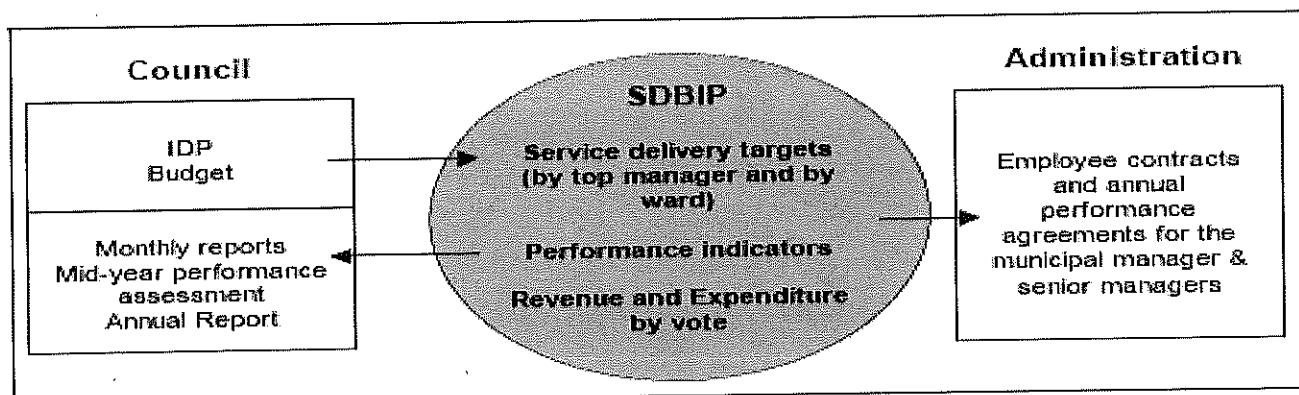

The contents of the municipal SDBIP (referred to in the preceding paragraph) are informed by the key performance indicators and targets, and the budget projections included in the various **Departmental SDBIPs**. These Plans are compiled to link specific service delivery responsibilities in the IDP to each of the senior managers (section 57 managers) of the municipality. An individual SDBIP must therefore be compiled for each of the municipalities Departments. The Performance Agreement of the responsible section 57 manager will then be aligned with the contents of the Departmental SDBIP for which he or she is responsible. Because the SDBIP contains particulars of both service delivery objectives and targets, as well as the budget of that specific Department, it serves as a performance plan against which the activities of the Department could be monitored and assessed.

Operational guidelines for the compilation of the municipal SDBIP, and Departmental SDBIPs could be found in MFMA Circular No. 13. The contents of this Departmental SDBIP would therefore be based on the guidelines of the indicated Circular.

**Figure 1: Relationship between the IDB, Budget and SDBIP in the Municipality**

It is important that the various Departmental SDBIPs must relate to the IDP of the municipality. The intention is that the SDBIPs for each of the Departments in the municipality must indicate what the specific section 57 managers (and his / her Department) are going to do to implement the IDP. The Departmental SDBIP must also relate to the budget for the specific year, because the budget will determine how much money is available to do the things anticipated in the SDBIP. The SDBIP should therefore determine (and be consistent with) the performance agreements between the mayor and the municipal manager and the municipal manager and senior managers determined at the start of every financial year and approved by the mayor.

Once the top-layer targets are set, the top management is then expected to develop the next (lower) layer of detail of the SDBIP, by providing more detail on each output for which they are responsible for, and breaking up such outputs into smaller outputs and linking these to each middle manager and supervisor. Much of this lower layer detail will not be made public nor tabled in council – whilst the municipal manager has access to such lower layer detail of the SDBIP, it will largely only be the senior manager in charge who will be using such detail to hold middle managers and supervisors responsible for various components of the service delivery plan and targets of the municipality. Only the highest layer of information of the SDBIP will be made public or tabled in the council. Such high-level information should also include per ward information, particularly for key expenditure items on capital projects and service delivery – this will enable each ward councillor and ward committee to oversee service delivery in their ward.

Being a management and implementation plan (and not a policy proposal), the SDBIP is not required to be approved by the council – it is however tabled before council and made public for information and for purposes of monitoring. The SDBIP is seen as a dynamic document that may (at lower layers of the plan) be continually revised by the municipal manager and other top managers, as actual performance after each month or quarter is taken into account. However, the top-layer of the SDBIP and its targets will not be revised without notifying the council, and if there is to be changes in service delivery targets and performance indicators, this will be with the approval of the council, following approval of an adjustments budget (section 54(1)(c) of MFMA).

The municipal manager is responsible for the preparation of the SDBIP, which must be legally submitted to the mayor for approval once the budget has been approved by the council (around end-May or early-June). The mayor will approve the final SDBIP and performance agreements simultaneously, and then make the SDBIP and performance agreement of the municipal manager public within 14 days, preferably before 1 July. It is only the top layer (of high-level) detail of the SDBIP that is to be made public.

It is the output and goals made public in the SDBIP that will be used to measure performance on a quarterly basis during the financial year. Note that such in-year monitoring is meant to be a light form of monitoring. The council should reserve its oversight role over performance at the end of the financial year, when the mayor tables the annual report of the municipality.

The in-year monitoring is designed to pick up major problems only, and aimed at ensuring that the mayor and municipal manager are taking corrective steps when any unanticipated problems arise. The SDBIP serves a critical role to focus both the difference between administration and council on outputs by providing clarity of service delivery expectations, expenditure and revenue requirements, service delivery targets and performance indicators.

## **2.1 Components of the SDBIP**

The five necessary components are:

- Monthly projections of revenue to be collected for each source

**3.1 Monthly projections of revenue to be collected for each source**

**3.2 Monthly Projections of Revenue and Expenditure (Municipal Vote):**

NC071 Ubuntu - Supporting Table SA25 Budgeted monthly revenue and expenditure

## **CHAPTER 4: THE STRATEGIC PLANNING FRAMEWORK OF UBUNTU LOCAL MUNICIPALITY**

---

### **4.1 Vision and Strategic Principles**

---

**"We, Ubuntu Municipality commit ourselves to be developmental and economically viable to ensure a better life for all.**

**Mission Statement**

The mission statement of the municipality reads as follows:

**We strive to achieve – Effective and efficient service delivery.**

**Mission Statement**

The priority issues for the current financial year 2020/2020 in terms of Ubuntu Local Municipality revised IDP for 2020/2021 could be summarized as follows:

**Priority issues:**

|    |                          |                                                                                                                   |
|----|--------------------------|-------------------------------------------------------------------------------------------------------------------|
| i) | Water & Sanitation       | The Municipality has a huge water scarcity and shortages<br>Upgrading of wastewater management challenges.        |
| j) | Education                | There is a huge shortage of teachers in schools and school infrastructure needs to be upgraded.                   |
| k) | Municipal Services       | Municipal services are accessible to the communities however the infrastructure is very old needs to be upgraded. |
| l) | Old age home             | There is a need for an old age home especially in Richmond.                                                       |
| m) | Environmental management | The landfill sites in the whole of Ubuntu Municipality needs to be upgraded and properly maintained.              |
| n) | Transport                | Roads needs to be upgraded in order to address the transport needs in the Municipality                            |

#### Purpose (Outcomes)

#### 4.2 Define the services and customers

The Departments are responsible for rendering the following services, which also define its customers

#### **4.2.2 Corporate Services**

| <b>Service</b>           | <b>Customer</b>                                                                                                                                                                                                                                                                                  |

| IT Services                   | To ensure the provision of effective IT services to all user departments.                                                           |

#### 4.3.3 Planning and Operations

| KEY PERFORMANCE AREA            | OBJECTIVE                                                                                                                                 |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------|
| Local Economic Development      | Ensure that local economic development is promoted in order to stimulate economic growth.                                                 |
| Integrated Development Planning | Ensure the approval and update of an IDP in line with provincial and national objectives to achieve Constitutional developmental mandate. |
| Land use                        | To ensure the availability and compliance to the land use systems and procedures of the municipality.                                     |
| Housing                         | To address the housing needs of all the inhabitants in accordance the IDP and Housing Plan.                                               |
| Traffic Services                | To render consistent and effective traffic services to all the residents of ULM Municipality                                              |
| Environmental Health            | To ensure that effective environmental health services are provided to all communities                                                    |

#### 4.3.5 Outside Town

| KEY PERFORMANCE AREA  | OBJECTIVE                                                                                                                                                                                                                          |
|-----------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Solid Waste           | To provide effective and reliable solid waste removal services to unit                                                                                                                                                             |
| Roads and Storm water | To provide safe and well maintained streets and unit                                                                                                                                                                               |
| Electricity           | To render a reliable and cost effective electricity to all the residents                                                                                                                                                           |
| Mechanical workshop   | To maintain vehicles and equipment belonging to the Municipality to ensure the safety of the drivers/operators of such vehicles and equipment and to provide a reliable fleet of vehicles / equipment to enhance service delivery. |
| Fleet management      | To manage municipal vehicles / equipment in such a manner to extend the lifespan of such vehicles / equipment and to ensure a reliable fleet of vehicles / equipment to enhance service delivery.                                  |

#### 4.3 Two outside Towns

| KEY PERFORMANCE AREA | OBJECTIVE                                                                                       |
|----------------------|-------------------------------------------------------------------------------------------------|
| Traffic Services     | To render consistent and effective traffic services to all the residents of Ubuntu Municipality |
| Environmental Health | To ensure that effective environmental health services are provided to all communities          |
| Library Services     | To provide friendly and effective library services to all the residents of Ubuntu Municipality  |
| Solid Waste          | To provide effective and reliable solid waste removal services to unit                          |
| Roads and Stormwater | To provide safe and well maintained streets and storm water unit                                |

#### **4.4 Alignment with the IDP**

The SDBIP of the municipal manager defines Council expectations of the municipal manager performance agreement to which is allocated and section 57(5) of the Municipal Systems Act, which provides that performance and targets must be based on performance indicators (KPI's) as set in the Municipality's Integrated Development Plan.

---

*The format prescribed in MFMA Circular No. 13 will be followed with the compilation of this SDBIP, which is as follows:*

#### ***Figure 4: Format of the Departmental SDBIP***

*Given that the SDBIP is summary of all the departmental SDBIPs, it is important that it set out the required information. For the purposes of this document, the structure of the Departmental SDBIP's would be determined by the Key Performance Areas (KPA's) as per each section of the IDP goals identified in the approved IDP for 2020/2021. Generally, Ubuntu municipality's vote structure is not specifically aligned to the GFS classification. However for the purpose of this document and compliance with the national treasury's GFS classification and reporting, the level of votes has been arranged to conform to the GFS functions and sub-functions, and these are aligned to senior managers. Each senior manager*

*Reporting directly to the municipal manager and the municipal manager him/herself is responsible for various service delivery functions (the GFS functions).*

*Under each of the main IDP goals and GFS function, the following information must be provided<sup>1</sup>:*

---

<sup>1</sup> Format prescribed in MFMA Circular No. 13, pages 12-13.

- *Comment on discretionary and non-discretionary expenditure. Non-discretionary are considered to be costs that must be incurred.*
- *Highlight major features of expenditure (i.e. highly mechanized or highly labour reliant etc).*
- *Type of staffing (professionals, technical, clerical etc) number and Rand value.*
- *Budgeted revenue by vote and source for the current year, budget year, and at least two future years. Include monthly projections of revenue in the same format as required for the municipality's SDBIP including additional performance measures for revenue targets and collection levels.*
- *Comment on revenue dependencies, expected major shifts in revenue patterns and possible alternative sources of revenue for investigation.*
